CARD GAMES OUSTED

After just a month the cards and poker chips are again stored away and the amusement resorts of Tempe are left with but the pool tables and dice games as a means of revenue. On the order of the marshal Thursday, the card games went out and yesterday the click, click of the poker chips was conspicuously absent. The marshal's authority for abolishing the games is the state law and rather than overlook his suggestion and take a chance of getting hauled into court, all of the resorts did away with their games at the appointed time. It was little short of a month ago that cards were reinstated in Tempe after being ruled out for a year or more. Dice games and punch boards came back in an attempt to get the nitwits to property owners out within the next day or two.

FINANCES and MARKETS

[Republican A. P. Leased Wire]
NEW YORK, Dec. 3.—Wall Street. The market was less active, but more responsive to constructive conditions today, throwing off much of its pessimism of the previous session and closing with moderate but general gains. In the early dealings some irregularity was observed.

London was again a moderate seller of our securities here, but almost the only reflection of the foreign situation was seen in another loss record for German exchange. Marks fell to 78 1/2, a decline of 1/2 from its recent minimum quotation, with an upward tendency for sterling and francs.

Rails finished a basis for confidence by their quiet strength, Canadian Pacific proving the only notable exception. Union Pacific, Southern Pacific and others were higher by a point.

United States Steel was easy and recovered its loss of the previous day, gaining 1 1/2 at 86 1/2. Steel's tonnage figures for November appear a week from today and forecasts indicate a gain over the remarkable increase shown by the October statement.

Bethlehem Steel was unquoted until the final hour of the session, when it opened at 45 1/2, a loss of 10 points, but it soon rose to 47 1/2.

Coppers of all classes were firm and almost two score of issues, comprising industrial, equipment, oils and automobile stocks were 2 to 10 points higher. Total sales of stocks amounted to 473,000 shares.

The extent to which money is piling up at this center is evidenced by today's free offerings of new issues, most of them at 2 1/2 per cent, which equals the low rate for this form of accommodation in several years.

Bonds were irregular on light trading. Total sales, par value, aggregated \$4,337,000.

United States bonds were unchanged on call.

CHICAGO GRAIN

CHICAGO, Dec. 3.—Wheat made a three-cent advance today, chiefly because of decidedly higher quotations from Liverpool and hopes that export sales would continue large. The upturn, however, was not well maintained, the market closing unsettled at net gains of

PHOENIX MEN BUY SAN JUAN PROPERTY

(Special to The Republican)

SAFFORD, Ariz., Dec. 3.—The San Juan mining property embracing 240 acres in the Lon Star mining district, nine miles north of Safford, was purchased today by J. C. Adams and associates of Phoenix and the deeds recorded.

The San Juan was extensively worked about seven years ago when upward of \$300,000 of copper ore was shipped, but during the past year was suspended. Last year the property was drilled and about one million tons of 2 1/2 per cent copper was put in sight. This work proved that the San Juan is a discriminated porphyry deposit of merit with a large area of ore bearing ground.

The remarkable feature of the San Juan is the extensive mineralization. The surface over many hundred acres being generally copper stained. Mining engineers of note who have seen the property say that it has the best showing of any new property since the last year's discovery was developed and bought out.

Mr. Adams' intention is to organize immediately the San Juan Copper company, and develop the property to make one of the leading copper mines of Arizona.

AMUSEMENTS

Lamara Theatre

In Harvey's adaptation of "Georges de Hout" the great novel of the late sixties in France, Wilton Lackaye, essaying a double role, made a great showing at the Lamara theatre, where the picture was run yesterday.

The feature of the program, "The Broadway feature" is among the best that has ever been shown here. The action is swift and the picture abounds with tense dramatic situations.

The action takes place during the period of French history just preceding the war with Prussia, which was so disastrous to the hopes of the Napoleonic dynasty and which ended in the foundation of the Third French republic, which Germany is trying to destroy now. The picture will be run again today. The serial, "Neal of the Navy," is gaining in

1914 to 1 1/2, with December, \$1.12 and May \$1.13@1.14. Corn finished 1c to 1 1/2c down, oats off 1/2c to 3/4c, and provisions varying from 3/8c decline to a rise of 1/2c.

Bullish cables, which accompanied the higher prices quoted by Liverpool, had a good deal to do with creating widespread sentiment in favor of lifting the wheat market here.

Larger country offerings, with weather of a kind that promised increased receipts made the corn market weak.

Gains suffered from reports that the bulk of export business was Canadian. Provisions advanced with hogs, but subsequently lowered.

NEW YORK MONEY

NEW YORK, Dec. 3.—Mercantile paper, 2 1/2@3 per cent. Sterling, 86 1/2@87 1/2. Demand, \$4.25@4.35. Cable, \$4.10@4.20. Bar silver, 55c; Mexican dollars, 42 1/2c. Government bonds steady; railroad bonds irregular.

ENJOYABLE TRIP FOR THE ROTARIANS TODAY

The finishing touches were put on the plans yesterday for the motorcade of the Rotary club to Castle Hot Springs, which will take place today.

Captain Taylor, P. C. Gettins and W. A. Horrell, who have been looking after the matter, report that there will be about ninety persons who will make the trip.

While a number of the machines will start on the trip in the morning, perhaps the largest part of the travelers will leave the Chamber of Commerce building at one o'clock in the afternoon. All persons who have not notified Messrs. Horrell or Taylor of their intentions of making the trip, are requested to do so before ten o'clock this morning, in order that accommodations may be reserved for the proper number at the hotel.

Elaborate preparations have been made for the entertainment of the guests at the springs, and the day's amusements will include tennis and golf and other pastimes. The swimming pool is in fine shape and is awaiting the pleasure of the visitors. The big features of the evening will be the banquet and dance.

popularity with every passing installment, the work of beautiful Lilian Lorraine being of high quality.

"The Politicians" at Lion Today

At the Lion theater today for the last time, the big comedy hit, "The Politicians," will be shown, featuring Bicket and Watson, two favorite Broadway comedians. This comedy is in five acts, written by Aaron Hoffman. Fleeing from New York after election frauds, McGuire and Olson (Bicket and Watson), strong-arm politicians, are pursued by Ruby Swift, a female detective. The politicians elude her, purchase an ancient auto, and arrive in the rural community of Hicktown just in time for the yearly mayoral election. Ruby trails them, and is on the scene when they put their big-city political knowledge to use in stealing the election. The politicians adopt a disguise as a party and defeat one Franklin Bond, the crafty mayor, who has become so hard-headed in his small halliwick that his defeat is easy at their hands.

At the Plaza
Episode No. 9 of the big serial film, "The Broken Coin," will be the headliner at this theater today, and an unusually thrilling chapter of adventures will be presented in this picture. "Room Twenty-two" is the title of the comedy reel which will feature Grace Cunard and Frances Ford. Another good two-reeler will be shown, "My Tomboy Girl," this comic picture featuring Rosemary Theley and Harry Meyers. Six extra good reels are always on the program at the Plaza.

At the Coliseum
The bill at this house greatly pleased the big crowd that gathered there last night, and as the program is to be repeated tonight, a full house is expected. The pictures of the African hunt of Col. Theodore Roosevelt were especially interesting and instructive. The travel pictures, which were accompanied by a lecture from Mr. Tuttle, were also well received.

The act entitled "The Barbarians," in which was featured Miss Clair Bradley and her assistant, "The Devil" was a very interesting display of electricity and required the use of a large number of volts of the fiery fluid, which was handled in a very business-like manner by Miss Bradley.

There will be a matinee today especially for the school children, and the admission price will be cut in half for the benefit of the youngsters.
